Narration # 1 - New Orleans: where jazz dances on cobblestones, history whispers through moss-draped oaks, and every street corner tells a tale dipped in gumbo magic, a girl dreams of opening her own restaurant "Tiana's Palace" in memory of her father who has passed away, little does she know what fate has in store.

Narration # 2 - Prince Naveen, ever the dashing dreamer, finds his pockets as empty as a jazz club at dawn. Hoping to swap his froggy fortune for a golden kiss, he has ventured into New Orleans to marry a wealthy heiress. However, his plans take a twist when he encounters Dr. Facilier, the Shadow Man, whose dark magic complicates Naveen's quest for wealth and changes the course of his journey in unexpected ways...and it starts with a kiss at the Masquerade ball.

Narration # 3 - Tiana and Prince Naveen, fleeing Dr. Facilier's grasp, find refuge in the swamp with their new friends Ray, a firefly, and Louis, a jazz playing alligator. Amidst the tranquility, they must craft a plan to reverse the spell that binds them in amphibian form. However, there may be some romance in the air.

Narration # 4 - Dr. Facilier, with a sinister scheme in mind, beckons his shadowy allies from the other side to track down Prince Naveen. His devious plan? To steal Charlotte's fortune by any means necessary, but time ticks ominously, as these spectral friends grant him only a fleeting moment to get the job done.

Narration # 5 - Dr. Facilier's time trickled away like sand through fingers, Prince Naveen and Tiana, still ensnared in froggy form, discover a newfound love. Igniting a leap of faith, they decide to hop into matrimony, bound by love's enchanting spell.

Narration # 6 - With a magical kiss, the spell shattered, restoring Tiana and Prince Naveen to their human forms. Together, they open a bustling restaurant where love and flavors intertwine and they lived Happily Ever After!
